MEMO

DATE: January 26, 2016
TO: Board of Trustees
FROM: Isaac Thorne, Chief Operating Officer
SUBJECT: FY 2016 Second Quarter Ridership Data and Trends

BACKGROUND: The second quarter ridership is down 9.7% for fixed route ridership compared to last year. The year-to-date ridership has decreased 49,773 rides.

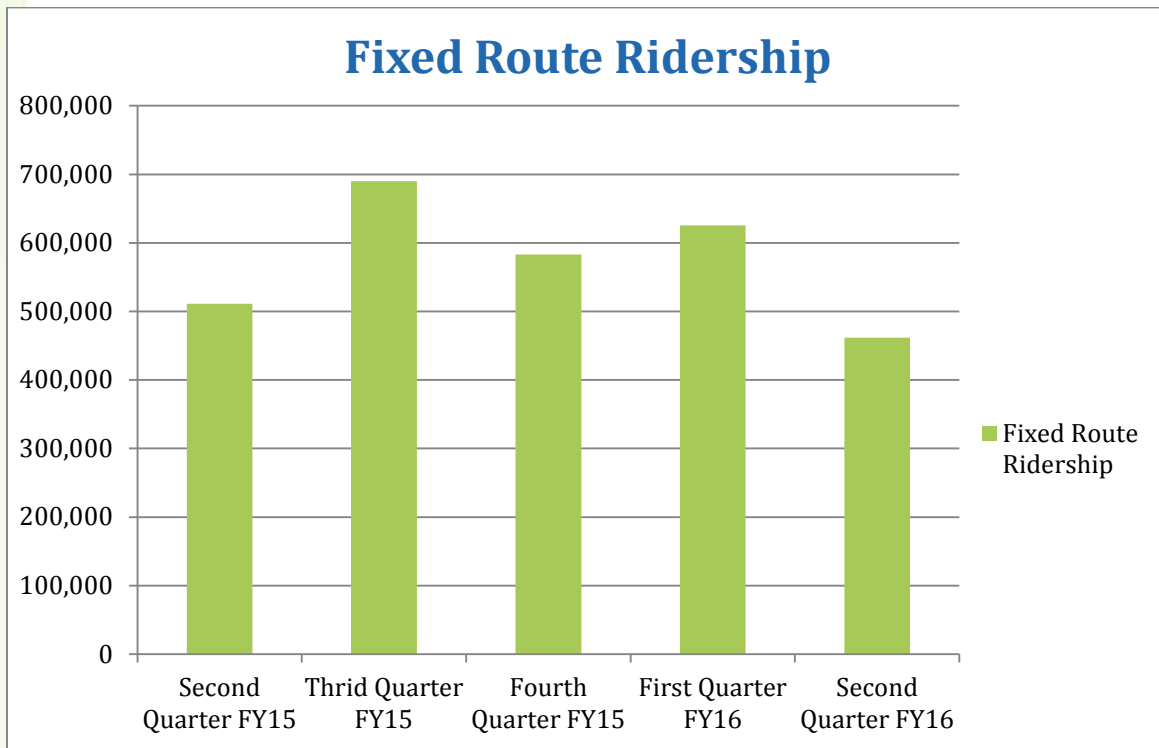

DISCUSSION: Staff has looked at several possibilities for the decrease in ridership:

- On-time Performance – The second quarter of FY2016, on-time performance is down 2.8 percent over FY2015 second quarter. The on-time performance is also affected by the number of detours which we discuss below.
- Revenue hours – Connect operated slightly more revenue hours in the second quarter of FY2106 then FY2015 second quarter. Revenue hours will fluctuate each quarter based on the number of service days.
- Student Universal Access – Staff determined that student utilization decreased 23.38 percent in the second quarter of FY2016 over FY2015. The utilization of Illinois State University (ISU) students decreased 22.11 percent, Heartland Community College students decreased 10.07 percent, and Lincoln College (LC) students increased 15.4 percent.
- Weather – Staff believes that Illinois State Students could be walking to class instead of taking Connect Transit due to the higher than normal temperatures. The average historical high temperature in Bloomington-Normal for October is 65 degrees, November 50 degrees, and December 36 degrees. In 2015 the average temperature for October was 67 degrees, November 54 degrees, and December 45 degrees. These are all higher than normal temperatures and could lead students to walk or bike to class rather taking Connect Transit.
- Number of monthly passes sold – Connect sold 1,481 monthly passes in second quarter of FY2016 and 1,632 in the second quarter of FY2015. The total number of times the monthly pass was utilized decreased 16.6% or 10,934 in the second quarter of FY2016.

- Gas prices – The price of a gallon of gasoline has decreased from an average of \$2.66 in second quarter of FY2015 to \$1.96 in FY2016, in Bloomington-Normal. Due to the price of gasoline sold below \$3.00 a gallon, vehicle miles traveled as reported by the Federal Highway Administration was up 2.4% or 6.4 billion miles in October 2015 compared to October 2014. The national average price per gallon of gasoline in 2014 was \$3.34, and \$2.40 in 2015. AAA reported that 2015 had the second cheapest annual average gas price of the last ten years.
- Detours – There have been a number of detours that have affected the fix route system over the last quarter. Connect has seen a reduction in the number of detour miles from FY2016 first quarter to second quarter. An additional 2,292 miles have been driven due to detours, the number of additional miles also effects on-time performance.

The table below represents the total unlinked passenger trips that Connect Transit has provided from the second quarter of fiscal year 2015 through first quarter of fiscal year 2016.
